

Instructions for Preparation of Waybill for Canadian Freight Collect Packages to SSK

By using the information below to complete a UPS WORLDWIDE SERVICES WAYBILL, you as the shipper will not be directly charged by UPS. SSK's account will be billed at our discounted rate and we will add the charges to your invoice upon the return of your CYPRES. Be sure to print clearly!

Section (1)

- A. Leave blank
- B. Enter if you have a *shipper ID #* (not required)
- C., D., & E. Enter *name, phone #, and address* as requested.

Section (2)

- A. Enter **499454**. IMPORTANT! If using an old pre-printed waybill, cross out any other number.
- B. Enter **311066589**
- C. Enter **KAREN DEAN**
- D. Enter **513-934-3201**
- E. Enter **SSK INDUSTRIES, INC., 1008 MONROE RD., LEBANON, OHIO 45036, UNITED STATES**

Section (3)

- A. Mark **X** for FREIGHT COLLECT
- B. Leave blank

Section (4)

Mark **X** for EXPRESS or EXPEDITED. For now, **EXPEDITED** seems to be the best value. The freight costs will be approximately \$30 US (includes pickup & routine customs clearance) and time-in-transit should be 2-3 business days. EXPRESS service costs approximately \$5 US more and should be 1 day faster. WARNING: SSK does NOT receive discounted rates for "3 Day Select" or "Standard" service levels. Costs will be higher if you choose these levels, even though UPS may quote a very low rate for "Standard". However, they do not tell you that Entry Preparation Charges (brokerage fees) are added separately, often \$20-35 US.

Section (5)

- A. Enter **1**. Put all CYPRES units being sent into 1 outer box.
- B. Enter *actual weight in lbs.* (lbs. are preferable because UPS always rounds up to next whole number)
- C. Enter *billable weight in lbs.* [Multiply length x width x height (in inches) of the box, divide by 166, then round up to the next highest lb. Don't use a larger box than necessary, as it may cause a higher charge. For example, a standard UPS Next Day Air (size Large) box has a billable weight of 4 lbs. even if it weighs only 2 lbs.] UPS will charge the higher of actual weight or billable weight.
- D. Mark **X** where appropriate. (Use of a cardboard box is strongly recommended - mark **X** for OTHER, enter **BOX**)
- E. Enter description of goods as **HTC 9014.20.8080 - AERONAUTICAL NAVIGATION APPLIANCE**
- F. Leave blank
- G. Enter *amount of insurance desired* (Can. \$). UPS will depreciate items lost or damaged so there is no reason to over-insure.
- H. Enter **20.00**. (Be sure to state "Value for Customs Purposes \$20 CAN" on your commercial invoice. See "SAMPLE")
